## Planting Directions for Chrysanthemums

Plant in good sunny location on ground that was fertilized the previous fall or at the time of digging. If possible mix a tablespoon of bonemeal into each hole when you plant them. When plants are well started, pinch out the center of each. Then if you want extra large flowers leave just 6 or 8 shoots to the plant and just one bud to the shoot. If you do not care for the exhibition size flowers they do not need any thinning or disbudding except the pinching out the tops of the plant after growth is first started. They will make nice cut flowers and garden decoration without disbudding.

You owe it to yourself to give these English Chrysanthemums a good trial.

If possible, mention a few second choice varieties. Some of the stock is still scarce and the demand has been great.

These are nice strong single plants grown from rooted cuttings.

## HARDY ENGLISH CHRYSANTHEMUMS

	Each
<b>ALABASTER</b> —A very early white of large size and good substance. Slightly incurved and will grow five inches across if disbudded. An extremely fast multiplier. Every mum collection should have this one.....	Aug., Sept. .25
<b>ALEXANDER MASON</b> —Rich buttercup yellow, large perfectly incurved bloom of fine form and on good stems. Easy to grow. If disbudded to 6 or 8 buds can be grown to 6 inches across.....	Sept. .25
<b>ADORATION</b> —Large spreading flower of pink on cream ground. A very fine variety. Plants will carry 6 to 8 blooms 6 inches across. A good grower and grand for cutting.....	Sept. .35
<b>ALPINK</b> —Deep rose pink variety of good size, grown on nice stiff stems.....	Sept. .30
<b>ANTELOPE</b> —Salmon-amber with distinct glow of orange on inside of petals; an extremely large incurved exhibition flower, easy grower, long stems. 4 ft.....	Aug. .40
<b>ALFERTON BEAUTY</b> —Really a beauty that we especially like. Amber with gold reverse. A large deep reflexing flower.....	Early Sept. .40
<b>ALCADE</b> —A bright crimson with spiky, cactus-like pointed petals, medium size blooms that make an attractive cut flower.....	Sept. .45
<b>AMBER EUTOPIA</b> —A very lovely light amber. Large flat flowers. A grand, very special flower.....	Sept. .40
<b>ADVENTURE</b> —Large deep crimson flowers with bronze reverse. Broad petals, good stem and foliage.....	Sept. .40
<b>ARDENT</b> —Very large crimson with gold tips. Good stems and foliage.....	Sept. .35
<b>ARCTIC CIRCLE</b> —Pure white; a large incurved bloom. If disbudded some it will make a real wonder. Clean grower and long stems.....	Early Sept. .45
<b>ALMIRANTE</b> —A large terra-cotta red shaded scarlet. A real lovely variety.....	Sept. .35
<b>AVALANCHE</b> —A very early white with a cream center. Fine for cutting and valuable for earliness.....	Aug., Sept. .35
<b>AMORELL</b> —Large flat bloom of Indian red. Pointed petals.....	Sept., Oct. .35
<b>BRONZE McLEOD</b> —A fine large sport of George McLeod. A fine large bronze that you will like.....	Sept. .35
<b>BRONZE PRECOSE</b> —A real summer bloomer that has a lovely medium shade of bronze blooms. Nice for home cutting. Blooms at about the same time as the cushion mums.....	Late July and August .40

<b>BUTTERCUP</b> —A very large incurved golden yellow. Grand disbudded or grown in sprays.....	Sept. .30

<b>BALCOMBE GOLD</b> —A bright old gold. Not yellow; more of a bronze orange. A color hard to describe. Flowers incurved and really large if disbudded.	Each
	Sept. .30
<b>BRONZE EARLY BUTTERCUP</b> —Rich deep bronze with golden buff reverse. A fine incurved variety. One of the finest early varieties ever raised, having won many awards. We find here in our nurseries that it should be disbudded to a dozen or so buds to the plant to be at its best, otherwise it makes far too many blooms for the stems to be strong.	
	Aug., Sept. .25
<b>BRONZE FRED A</b> —A lovely bronze salmon variety that is extra fine for table decoration. Petals of quilled formation. Starts blooming early and blooms over quite a period of time. Very frost resistant. Disbuds well and also fine in sprays.	Aug., Sept. .40

<b>BRIDESMAID</b> —A large very delicate blush pink suffused light salmon, full reflexed bloom. Flowers are about the same size and type as Primrose. This is the second time we have listed this one and we really think this one is super.	Sept. .50
--	-----------

<b>BELLE MAUVE</b> —A lovely stiff-stemmed silvery pink. It disbuds well and is also grown in sprays. Gives a great wealth of cut flowers, fine for commercial cutting	Sept. .30
<b>BERENGARIA</b> —A deep orchid pink of reflex form. Disbuds into a fine large flower	Sept. .25
<b>CRUSADER</b> —An immense white, slightly tinged pink. Really if you disbud this you will be extra pleased. Straight stiff stems, large blooms brushed pink on the tips.	Sept. .50
<b>CRIMSON SPLENDOR</b> —Rich velvety crimson. The showiest one that we know of in this color. Nice size flowers too	Sept. .50
<b>COPPELIA</b> —This is quite a new shade, a bright Indian red—very startling and does not fade with age. Fine strong stiff stems that grow lovely in sprays. One of our best sellers in both plants and cut flowers.	Aug., Sept. .40
<b>CHINA GOLD</b> —A bright golden bronze with quilled petals. One of the best in sprays. Has very stiff stems, quilled petals and grows very tall. Blooms later than most varieties. Good to lengthen the blooming season.	Oct. .30
<b>CERISE</b> —A lovely spray variety that grows tall on wiry stems. Blooms in the greatest profusion. A lovely rosy cerise with quilled petals. A variety that is very lovely for table decorations.	Sept. .30
<b>CONQUEROR</b> —A lovely rich crimson. A variety that is very lovely either disbudded or in sprays. Will grow to 6 inches disbudded. Tall stiff stems. Does not fade. Grows 8-10 to the plant disbudded. Very popular.	Sept. .50
<b>CALUMET</b> —A very large incurved yellow. Slightly touched with bronze. Disbud 6 to 8. Will make a 6-inch bloom. It is truly a lovely chrysanthemum	Sept. .50
<b>CORAL QUEEN</b> —A very lovely large salmon coral. A beauty. Good in sprays, also disbudded.	Sept. .50
<b>CRIMSON BUTTERCUP</b> —An exceptionally fine variety. Identical with Bronze Early Buttercup except the reverse of the petals are crimson. Should be disbudded. You'll love it. Sure does multiply fast.	Aug., Sept. .30
<b>CHARMWOOD</b> —A classical type of bloom the petals overlapping each other in close formation to build up a flower about four inches across; color is a bright rosy mauve.	Sept. .40
<b>C. W. JOHNSON</b> —A fine large very incurved white.	Sept. .35
<b>CARNIVAL</b> —A very bright scarlet red. A very vivid color. Flowers about four inches across and of very nice shape. One that is much admired.	Mid-Sept. .50

## GROWING INSTRUCTIONS FOR GLADIOLUS

Plant in good loamy soil about 4 inches deep as soon as frost danger is past. Plant about 6 inches apart in rows a convenient distance apart.

Treatment—Due to the presence of thrip in all parts of the U. S. it is advisable to treat before planting regardless of where purchased. Soak the bulbs in a lysol solution three to six hours and then plant. Solution of four teaspoons per gallon of water. When bulbs are six inches high dust with a 5% D.D.T. powder or spray, whichever is most convenient. This should be done about every 10 days until they show color.

**D.D.T. 5% Dusting Powder**.....**Pound .60**

**May We Substitute If Out of Any Variety?**

- BOYSENBERRY**—Thornless. Dozen 2.50.
- CURRENTS—Red Lake**—Bright red. Extra large bunches and berries. This is also a new one. Two-year plants .50 each; dozen, 5.50.

**LUPINE—Russels Hybrids**—You will find in this fine strain of lupine the most gorgeous flowers to be imagined. Some are solid colors of blue, pink, yellow, maroon, purple, etc. Many are lovely by-colors, such as violet and white, blue and yellow, red and bronze, red and white, purple and cream, yellow and orange, pink and white, etc. The standards are one color and the keel another. The flower spike resembles a closely set column of sweet peas with all flowers on the spike open at one time and the spike 3 to 5 feet tall. One of the sensations of the English horticultural world. We can offer them only in an assortment of colors; however, there are such a great variety of colors and combinations of colors that they should all be different. Nice strong young plants at.....Dozen 1.00

## GENERAL INSTRUCTIONS

**PLEASE NOTE**—All orders must be in by June 1. This catalogue expires on this date. (Iris excepted.)

**CHRYSANTHEMUMS**—Plants will be ready shortly after April 1. Our mum plants are greenhouse grown, and should not be planted outside until frost danger is past unless protected. After being established they are perfectly hardy.

**PLEASE** specify approximate date you want them shipped.

**WRITE** your order on separate sheet from letter. Write plainly or print.

**BE SURE** your Name, Post Office, and Express Office are on your order.

**TRANSPORTATION**—We prefer to ship by express collect if you have an express office. Shipments are handled more carefully. They are kept right side up and are not kept for days in tight, hot mail sacks. However, on small orders postage is cheaper, and orders to be shipped that way should be accompanied with sufficient postage. We send extra plants to cover any excess postage, as it is impossible to keep a record of postage on individual packages.

**CLAIMS** or complaints must be made upon receipt of order.

**DEALERS**—Use your letterhead in writing for quotations on larger quantities.

**ORDER EARLY**—Avoid disappointment. **SPECIFY** second choice.

**PLANTS** received in bad order should be reported to Express Company and claim made at once. They are responsible for safe delivery. We will replace plants untrue to name but we cannot be responsible for results, or crops, as we cannot control conditions under which they are planted or grown.

**LOCATION**—Between 6th and 7th on Bryden Avenue, Lewiston Orchards. Go straight south on 18th Street from Main in Lewiston to top (2 miles) of hill. Turn east 1½ blocks. On the pavement. Phone 3660.
